

FAASTeam presents:

NW Mountain Virtual Aviation Safety Week - March 23 2021 - Day 1 - Session 1

As pilots we get distracted all the time. You may be surprised, how simple things we do outside the cockpit, causes distractions in the cockpit. We will look at Aeronautical Decision Making and how it plays a role in distractions. We also will look at distractions in three Categories, Visual, Manual, Cognitive. We will give you suggestions to help you navigate these distractions to help you with better situational awareness of your surrounding both inside and outside the plane.

Directions: This Virtual Aviation Safety Event will be hosted using the Goto Webinar platform.
Goto Webinar registration link:
<https://register.gotowebinar.com/#register/7681635046464338704>

Once registered, you will receive an email confirmation from the Goto Webinar system platform with joining the webinar information for each topic you have registered. Thank you for your participation.

To register for Wings Credit please click on the registration information link below.
